Hot Topics in eDiscovery

Tuesday, October 20, 2020 at 2 p.m. (Eastern)

The eDiscovery process involves much more than traditional files and emails that are found only on servers and computers. From social media to chat applications to the cloud to the Internet of Things (IoT), this seminar will help you understand the multiple kinds of data you can collect and how to use it for a legal matter or investigation.

- Recent Trends in AI and Technology Assisted Review.
- Working with your client's IT – it's easier and more important than you might realize.
- Focus on preservation – everyone will thank you.
- Identify all potential data sources – including call recordings, video or otherwise (increasingly common in COVID/WFH era).
- Social media, cloud platforms, chat apps, the Internet of Things (IoT) – your clients are there, whether they know it or not.
- GDPR Requirements and International eDiscovery Practices – the basics you need to know
- Electronic custodian questionnaires – a new twist on an essential process.
- Email archival and tape systems – when to go to them and common preservation strategies
- Preparing for Discovery – Meet & Confer, Model ESI Protocol.
- BYOD policies – how to protect data on employees' personal devices (of particular concern during COVID/WFH era).
- Recent Trends in AI and Technology Assisted Review.
